How It Started

Our story began over 30 years ago when Ghulam Rasool laid the foundation for a small-sized transportation business in the UAE, catering to various sectors with truck-based land transport.

Over the years, Ghulam Rasool Transportation (GRT) flourished, expanding its customer base while using a traditional brokerage model, relying on 3rd party trucks to serve clients.

In 2015, GRT's leadership transitioned to Usama Rasool, who recognized the need for innovation in navigating an ever-evolving marketplace. He aimed to strike the balance between tradition and innovation, enhancing customer service and expanding the company's market presence.
